PROFESSIONAL SUMMARY

Full-stack developer with 2 years of professional experience building and maintaining web applications using React.js, Next.js, Express.js, TypeScript, and PostgreSQL. Experienced in developing production-ready SaaS platforms, REST APIs, admin dashboards, and responsive user interfaces, along with handling deployments, Git workflows, and application maintenance. Comfortable working independently on complete features from development to deployment, understanding existing codebases, and improving application structure and performance. Interested in backend engineering, scalable systems, and building reliable software with clean and maintainable architecture.

EXPERIENCE

Full-Stack Web Developer — Zetacoding Innovative Solutions | May 2024 – May 2026

- Developed and maintained full-stack web applications using React.js, Next.js, Express.js, and PostgreSQL.
- Built reusable frontend components and responsive user interfaces based on project requirements and client needs.
- Worked on backend APIs, database integration, authentication flows, and application logic for business applications.
- Handled deployments, Git/GitHub workflows, bug fixing, and ongoing maintenance of production applications.
- Improved application performance and code maintainability by refactoring existing modules and optimizing API usage.
- Collaborated directly with clients to understand requirements and deliver complete software solutions independently.

PROJECTS

PG Management SaaS Platform

- Developing a SaaS platform for PG/property management with features for tenant handling, room management, and admin operations.
- Built using Next.js, React, TypeScript, Express.js, and PostgreSQL.
- Designed modular frontend architecture and scalable backend APIs for future feature expansion.

Documentation Framework using Next.js & MDX

- Built a lightweight documentation framework with MDX support, static export capability, dynamic routing, and reusable documentation components.
- Implemented file-based content management and SEO-friendly static generation using Next.js App Router.

AI & Flask-Based Applications

- Built Flask applications integrated with Machine Learning and Deep Learning models for academic and experimental projects.
- Created interactive interfaces for prediction and data processing workflows.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, TailwindCSS, HTML5, CSS3.

Backend: Node.js, Express.js, REST API Development, Authentication & Authorization.

Databases: PostgreSQL, MongoDB, MySQL.

Tools & Technologies: Git & GitHub, Deployment & Hosting, API Integration, Linux Basics, Postman.

Additional Exposure: Flask (Python), Machine Learning Model Integration.

EDUCATION

Bachelor of Computer Applications (BCA), JMJ BCA College, Sirsi, Uttara Kannada, May 2021 – Aug 2023.

Pre-University Education (Science – Computer Science), MES PU College Sirsi, 2017 – 2020
